Dear Potential Donor,

BESO (Bilingual/ESL Education Student Organization) is a student organization at UNT Dallas. We are proud to be the largest and fastest growing organization at our campus. Our purpose is to promote bilingual/ESL (English as a second language) and multicultural education by facilitating the sharing of information and resources between education students and faculty at the University of North Texas at Dallas. We actively engage in academic and community activities as volunteers. BESO promotes training programs designed to prepare future educators through professional development, leadership and personal growth, supports community outreach, and offers its members information about financial aid for their education career by connecting them with many scholarship opportunities.

BESO is an affiliate of the Bilingual/ESL Association of the Metroplex (BEAM) and Texas Association for Bilingual Education (TABE). These organizations address legislative issues at the local, state and national level which affect the education of linguistically and culturally diverse children. These local and national organizations hold conferences to share the latest research in the education field. Our members benefit from professional development, networking opportunities, and interaction with other BESO members from around the state by attending the conferences. One of BESO's goals is to reduce financial stress among its members while providing them with educational investments to their professional lives. We are always accepting donations to benefit our quest to fulfill our goals. If you decide to contribute, your donation is tax deductible.

Thank you for your consideration and support of BESO and UNT Dallas.

Respectfully,

Laura Conejo
UNT Dallas BESO President
